Dear Friends and Family of Mother of Providence Regional Catholic School,

The end of the 2022-2023 school year marked the close of our Eleventh Academic year. We had many great accomplishments to celebrate over the past year.

- This year our Drama club presented an amazing performance of Aladdin Jr., under the direction of our marvelous parents who organize this club. It is amazing to see what the students are able to accomplish. This year our Director, Mrs. Katie Nelson, had a vision to give students the opportunity to experience all areas of production, not just the stage performance aspect. Students were taught how to run the light and sound boards along with help with scenery and other roles behind the scenes.
- Our speech and debate team returned to competition after a long hiatus due to Covid. They had an excellent season.
- Our Early Childhood Program, under the leadership of Mrs. Scarpignato our Vice Principal, received state certification.
- Our 5th-8th grade students had the opportunity to compete in the Archdiocesan Religion Bee. We congratulate all of the students who participated.
- The Reading Huskies participated in the Archdiocese Reading Olympics Tournament. The 7th and 8th grade team came home with a 1st place ribbon and the 5h grade team came home with a 2nd place ribbon.

We have all heard the saying "It takes a village" and here at Mother of Providence that village extends beyond the families in our building. That village includes our current families, past families, the parish communities that support us, our faculty and staff, and so many more. Thank you for being a part of our village as we continue to challenge the mind, nurture the heart, and live the Gospel.

God Bless,

Mrs. Sara Dempsey

Dears Friends of Mother of Providence,

The Mother of Providence Regional Catholic School Board of Limited Jurisdiction is made up of dedicated people who are positive, mission-driven individuals, and who strongly believe in Catholic education. Our Board governs with vision and compassion, charting the course for institutional success. We are currently engaged in strategic planning, developing a 3 to 5-year mission-based plan to ensure a well governed, sustainable school.

As Board Chair, I am pleased to share some exciting developments concerning our campus. As you may know, our school has undergone notable upgrading. Over the year, exterior wall improvements were completed in preparation for the original building window replacement project and a main hallway refresh project. Newer, energy efficient windows are required as a prerequisite for a potential air conditioning installation for the main building, the next major project envisioned as we build out the Mother of Providence Regional Catholic School Infrastructure Renewal Plan. This comprehensive plan will ensure that Mother of Providence Regional Catholic School remains the pinnacle of academic, athletic, and spiritual excellence for our students, while keeping our commitment to affordability. Along with these upgrades, thanks to a generous donor family we will be undertaking a playground enhancement project that includes a new playground design, new climbing structures, and playground resurfacing.

Sincerely,

Dr. Jeanne F. Brady

OUR MISSION:

We graduated 19 students this year. They earned over \$150,000 in scholarships. These graduates selected the following high schools: Cardinal O'Hara, Archbishop Carroll, Archmere Academy, Merion Mercy Academy, Salesianum, Penncrest, Strath Haven, Ridley, and STEM Academy.

Mother of Providence Regional Catholic School educates students' minds, nurtures their hearts, and prepares them to be faith-filled members of our diverse local and global communities. Dedicated and experienced teachers, committed to their vocation, create a dynamic learning environment that challenges students to reach their full potential. Parents invest time, treasure and talent to support the academic goals, further the values and beliefs rooted in the Gospel, and promote Catholic social teaching. Students flourish within the intimate atmosphere where their unique gifts are identified and nurtured. Every student goes forth empowered with the gift of knowledge that lasts a lifetime.
